

Protection you can trust.
Performance you can count on.

The FERNO VPX Safety Helmet combines certified industrial protection with a climbing-inspired design for secure, comfortable performance in demanding environments.

Certified to AS/NZS 1801:2024 and EN 12492:2012, it's designed for professionals working at height, in construction, mining, industrial environments and rescue.

EMERGENCY

RESCUE

SAFETY

For over five decades, FERNO Australia has earned the trust of professionals who work where safety is critical. From emergency response and defence to height safety and industry, we deliver equipment and safety solutions designed and manufactured for reliability, performance and the demands of daily operations.

VPX KEY FEATURES

LIGHTWEIGHT COMFORT

At 555 grams, the lightweight VPX helmet helps reduce fatigue during long shifts.

PRECISION FIT SYSTEM

The easy-adjust rear cradle system delivers a customised fit for superior comfort and helmet stability.

CONTROLLABLE VENTILATION

Adjustable side vents allow you to control airflow for personalised comfort in changing conditions.

360° VISIBILITY

Integrated reflective decals enhance visibility in low light conditions, with space for custom branding.

MULTI-ANGLE PROTECTION

Designed and certified to protect against both vertical and lateral impacts.

DUAL CERTIFICATION

Meets two recognised safety standards for added versatility.
